THIS EVENT IS FUNDED IN PART BY:

Jennifer J. Manly, PhD, is a world-renowned Alzheimer’s disease researcher and Professor of Neuropsychology at Columbia University Medical Center. She is one of the first African American Alzheimer’s disease researchers to focus on improving the diagnostic accuracy of neuropsychological tests among African American and Hispanic elders.

Dr. Manly serves on the US Department of Health and Human Services Advisory Council on Alzheimer’s Research, Care and Services, and is a member of the Alzheimer’s Association Medical & Scientific Research Board. She currently serves as a member at large on the Board of Governors of the International Neuropsychological Society.

Jonathan D. Jackson, PhD, is the founder and Executive Director of the Community Access, Recruitment, & Engagement (CARE) Research Center at Massachusetts General Hospital and an Instructor in Neurology at Harvard Medical School. His research focuses on midlife and late-life health disparities in clinical settings that affect Black populations.

Dr. Jackson serves on Mass General’s Alzheimer’s Disease Research Center (ADRC) and Mass General’s Cancer Center Equity Program, specializing in identifying and overcoming barriers to clinical research for people and communities of color and on statewide and national advisory groups for research recruitment, Alzheimer’s disease and community engagement.
